LAPORAN HASIL PELAKSANAAN PUBLIC EXPOSE

PT Jantra Grupo Indonesia Tbk
Tanggal Pelaksanaan: Kamis, 4 Desember 2025
Waktu: 08.30 WIB – Selesai
Lokasi: Offline - Jantrakakikaki Jakarta; Online - Zoom Video Conference

A. Informasi Umum Pelaksanaan

Emiten	: PT Jantra Grupo Indonesia Tbk
Kode Saham	: KAQI
Hari/Tanggal	: Kamis, 4 Desember 2025
Waktu	: 08.30 WIB – Selesai
Metode	: Hybrid (Offline & Online)
Tujuan	: Pemenuhan Peraturan I-E & SE-00003/BEI/05-2020
Divisi Penyelenggara	: Sekretaris Perusahaan

B. Agenda Public Expose

- Pembukaan oleh Sekretaris Perusahaan
- Pemaparan Profil Perusahaan
- Perjalanan & Tonggak Usaha
- Kinerja Operasional
- Kinerja Keuangan
- Penggunaan Dana IPO
- Risiko Usaha
- Inisiatif Strategis
- Rencana & Target 2026
- Sesi Tanya Jawab
- Penutup

C. Ketentuan Peserta

Hanya peserta yang telah terdaftar melalui link resmi: <https://linktr.ee/Pubex2025>.

D. Ringkasan Materi Public Expose

PT Jantra Grupo Indonesia Tbk memaparkan bahwa sejak berdiri pada 2017, Perseroan terus berkembang sebagai bengkel spesialis kaki-kaki mobil dengan komitmen pada legalitas, tata kelola, serta standar layanan profesional. Perjalanan usaha menunjukkan transformasi signifikan, mulai dari penguatan struktur GCG, pembukaan cabang-cabang strategis, hingga pencapaian sertifikasi ISO 9001 dan 45001 sebagai bentuk keseriusan dalam mutu dan keselamatan kerja.

Perseroan saat ini mengoperasikan 16 cabang di Jawa dan Bali dengan total layanan lebih dari 144 ribu unit kendaraan sejak awal berdiri, didukung berbagai penghargaan nasional yang menegaskan kepercayaan publik dan kualitas operasional. Kinerja operasional dan keuangan mencatat pertumbuhan positif, baik dari sisi pendapatan, aset, maupun ekspansi jaringan, meski laba bersih sempat tertekan akibat pembukaan cabang-cabang baru yang masih dalam masa penyesuaian.

Pengelolaan dana IPO juga berjalan efektif dengan tingkat realisasi lebih dari 95%, digunakan untuk ekspansi fasilitas, peralatan, dan kebutuhan operasional strategis lainnya. Perseroan tetap memperhatikan risiko usaha melalui penguatan SOP, audit internal, manajemen kas konservatif, serta upaya diversifikasi pemasok.

Ke depan, Jantra Grupo Indonesia Tbk berfokus pada penyelesaian ekspansi, peningkatan kualitas layanan, digitalisasi menyeluruh, penguatan supply chain dan SDM, serta penerapan GCG dan ESG yang lebih kuat. Perseroan menutup Public Expose ini dengan menegaskan komitmen untuk terus menjaga keterbukaan informasi, meningkatkan nilai bagi pemegang saham, dan menghadirkan layanan otomotif yang unggul serta terpercaya di Indonesia.

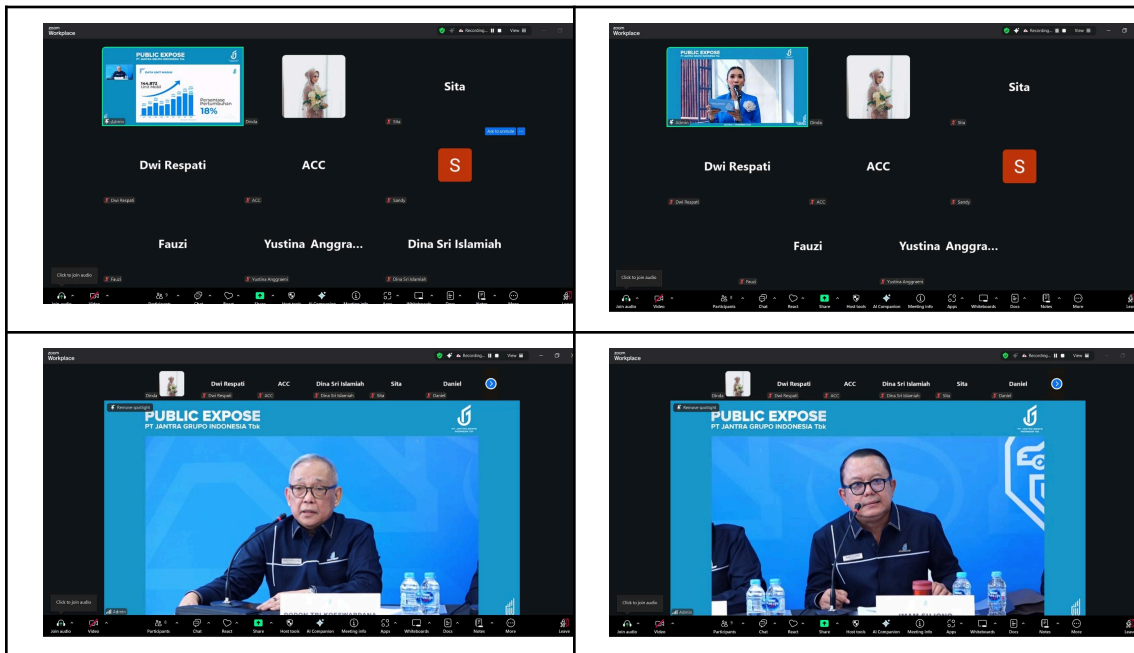

E. Tabel Sesi Tanya Jawab Investor

No	Nama Penanya	Media / Instansi	Metode	Pertanyaan (Lengkap)	Jawaban Perusahaan (Lengkap)
1	Alvian	Bisnis Indonesia	Bertanya Langsung (Onsite)	1. Berapa lama cabang baru dapat berkontribusi penuh terhadap pendapatan? 2. Target pendapatan tahun 2025 yang sebelumnya Rp 75 miliar apakah masih sama atau berubah? 3. Untuk ekspansi 2026, akan buka berapa cabang baru dan di kota mana saja?	- Cabang baru membutuhkan waktu bertumbuh bertahap: tahun pertama umumnya 40% utilisasi, tahun kedua 40–50%, dan mulai mencapai kapasitas mendekati optimal di tahun ketiga. - Target pendapatan tahun 2025 masih berada di kisaran Rp 75 miliar dan dinilai dapat tercapai berdasarkan realisasi sampai Q3. - Ekspansi 2026 masih berfokus di Jawa dan Bali; untuk ekspansi ke luar Jawa akan dilakukan selektif seiring kesiapan manajemen dan infrastruktur.
2	Dono	SWA	Bertanya Langsung (Onsite)	1. Berapa target pendapatan masing-masing cabang baru, terutama Bandung, Surabaya, dan Bekasi? 2. Berapa target pembangunan cabang tahun 2026? 3. Berapa estimasi investasi pembukaan cabang baru?	- Target pendapatan standar untuk setiap cabang baru adalah Rp 600 juta per bulan, dengan titik impas (BEP) di Rp 300–400 juta. - Dari 6 cabang baru tahun 2025, tiga yang performanya paling kuat adalah Surabaya, Bandung, dan Bekasi. - Target internal pembukaan cabang 2026 adalah 7 cabang baru, namun masih menunggu persetujuan Dewan Komisaris. - Estimasi kebutuhan investasi total berada di kisaran Rp 50 miliar (menyesuaikan lokasi, luasan lahan, dan peralatan).

3	Yuli	KONTAN	Bertanya Langsung (Onsite)	1. Jumlah total cabang yang beroperasi tahun 2025 berapa? 2. Tahun 2026 akan mengelola berapa cabang? 3. Sisa dana IPO sekitar 4,5% rencananya dipakai untuk apa? 4. Ekspansi pembukaan cabang baru 2026 menggunakan dana internal atau pinjaman?	• Total cabang yang dikelola tahun 2025 adalah 22 cabang (gabungan cabang existing + cabang baru). • Tahun 2026 direncanakan menambah sekitar 7 cabang baru, keputusan final menunggu RUPS/RKAP & persetujuan Dewan Komisaris. • Sisa dana IPO 4,5% tetap akan digunakan sesuai prospektus, yaitu untuk pengembangan cabang dan fasilitas. • Untuk pendanaan ekspansi 2026, Perseroan menyatakan bahwa kas internal masih cukup kuat, namun keputusan akhir akan mempertimbangkan RKAP dan persetujuan Komisaris.
4	Daniel	Majalah Investor	Bertanya Online (via Zoom)	1. Apakah Perseroan memiliki data komparasi internal terkait siklus kerusakan kaki-kaki mobil EV dibanding ICE? 2. Apakah bobot kendaraan EV menjadi katalis potensi pertumbuhan pendapatan untuk meng-offset penurunan servis komponen lain? 3. Bagaimana unit economics bengkel baru dibandingkan flagship store? 4. Bengkel baru biasanya break-even dalam berapa tahun? 5. Bagaimana Perseroan memastikan kualitas diagnosa mekanik di cabang-cabang daerah?	• Perusahaan mempunyai data internal komparasi EV vs ICE, namun bersifat internal dan akan dikirim melalui email langsung kepada penanya sesuai komitmen saat sesi Q&A. • Bobot kendaraan EV memang menjadi salah satu parameter teknis yang dianalisis divisi BD sebagai potensi kebutuhan layanan kaki-kaki di masa mendatang. • Unit economics cabang baru: utilisasi awal biasanya 40% dan meningkat bertahap selama 2–3 tahun hingga mendekati performa cabang matang. • Break-even periode bervariasi sesuai lokasi dan investasi, umumnya 2–4 tahun. • Jaminan kualitas diagnosa dilakukan melalui SOP terstandarisasi, sertifikasi ISO 9001 & ISO 45001, QC internal, monitoring pusat, dan evaluasi teknisi secara berkala.

10. Q&A Session
11. Closing

C. Participant Requirements

Only participants who have registered through the official link: <https://linktr.ee/Pubex2025>.

D. Summary of Public Expose Material

PT Jantra Grupo Indonesia Tbk stated that since its establishment in 2017, the Company has continued to grow as a specialist car suspension repair shop with a commitment to legality, governance, and professional service standards. The Company's journey has shown significant transformation, from strengthening its GCG structure, opening strategic branches, to achieving ISO 9001 and 45001 certifications as a form of its seriousness in quality and work safety.

The Company currently operates 16 branches in Java and Bali with a total of more than 144 thousand vehicle services since its inception, supported by various national awards that affirm public trust and operational quality. Operational and financial performance recorded positive growth, both in terms of revenue, assets, and network expansion, even though net profit was temporarily depressed due to the opening of new branches that were still in the adjustment period.

IPO fund management has also been effective with a realization rate of more than 95%, used for facility expansion, equipment, and other strategic operational needs. The company continues to pay attention to business risks through the strengthening of SOPs, internal audits, conservative cash management, and supplier diversification efforts.

Going forward, Jantra Grupo Indonesia Tbk will focus on completing its expansion, improving service quality, comprehensive digitalization, strengthening its supply chain and human resources, and implementing stronger GCG and ESG practices. The company concluded this Public Expose by reaffirming its commitment to maintaining transparency, increasing value for shareholders, and providing superior and reliable automotive services in Indonesia.

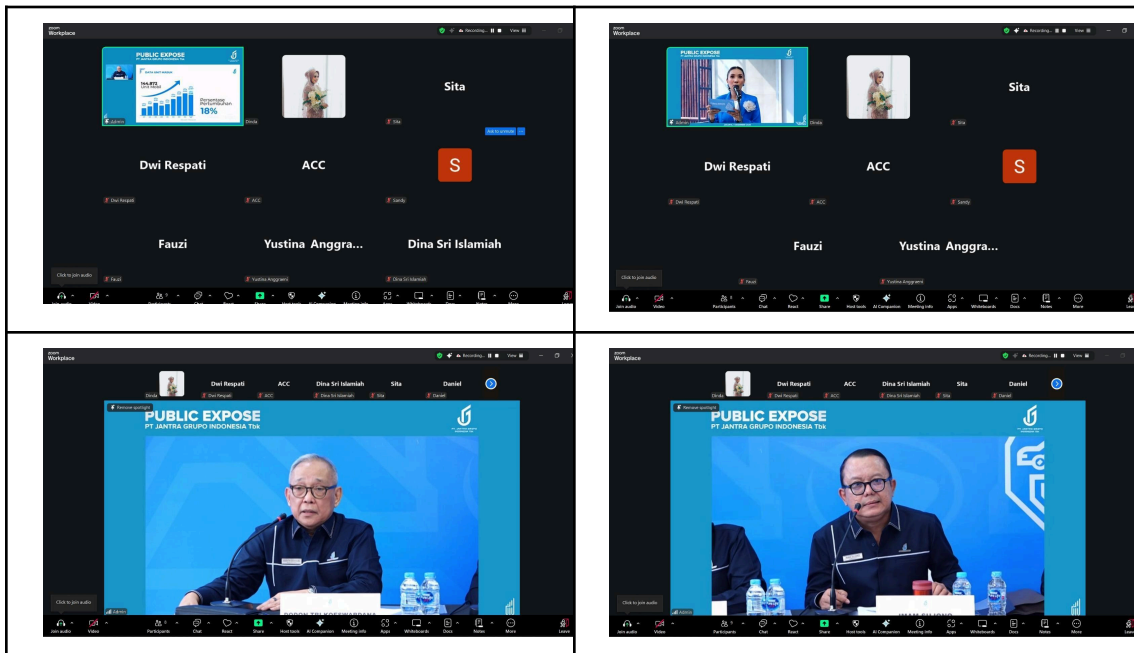

E. Investor Q&A Session Table

No	Questioner	Media / Agency	Method	Question (Complete)	Company Response (Complete)
1	Alvian	Bisnis Indonesia	Onsite	1. How long will it take for the new branches to contribute fully to revenue? 2. Is the 2025 revenue target of Rp 75 billion still the same or has it changed? 3. For the 2026 expansion, how many new branches will be opened and in which cities?	• New branches need time to grow gradually: the first year generally sees 40% utilization, the second year 40–50%, and they begin to reach near-optimal capacity in the third year. • The 2025 revenue target remains at around IDR 75 billion and is considered achievable based on the realization up to Q3. • Expansion in 2026 will still focus on Java and Bali; expansion outside Java will be carried out selectively in line with management and infrastructure readiness.
2	Dono	SWA	Onsite	1. What are the revenue targets for each new branch, especially Bandung, Surabaya, and Bekasi? 2. What is the branch development target for 2026? 3. What is the estimated investment for opening new branches?	• The standard revenue target for each new branch is IDR 600 million per month, with a break-even point (BEP) of IDR 300–400 million. • Of the six new branches in 2025, the three with the strongest performance are Surabaya, Bandung, and Bekasi. • The internal target for new branch openings in 2026 is seven new branches, but this is still awaiting approval from the Board of Commissioners. • The estimated total investment requirement is around IDR 50 billion (adjusted for location, land area, and equipment).

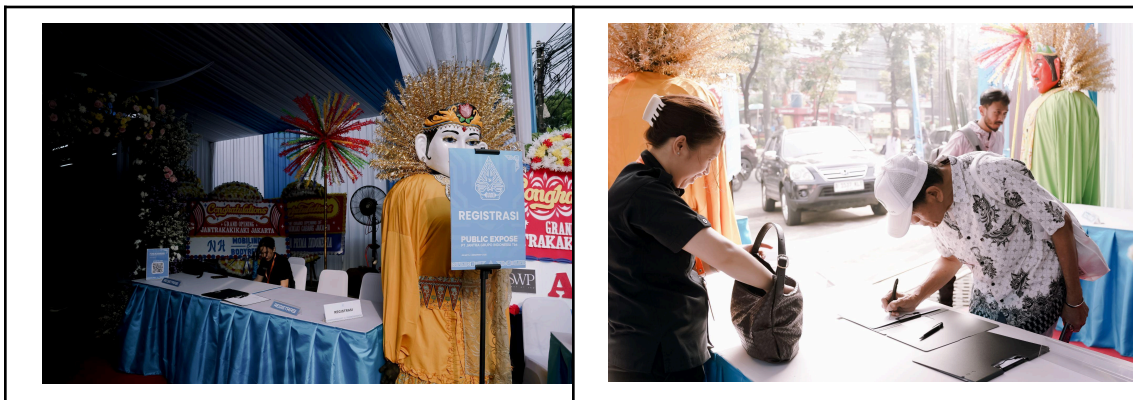

3	Yuli	KONTA N	Onsite	1. What is the total number of branches operating in 2025? 2. How many branches will be managed in 2026? 3. What is the plan for the remaining 4.5% of IPO funds? 4. Will the expansion of new branches in 2026 be funded by internal funds or loans?	• The total number of branches managed in 2025 will be 22 branches (existing branches + new branches). • In 2026, there are plans to add around 7 new branches, with the final decision pending the General Meeting of Shareholders/Annual Work Plan and Budget and the approval of the Board of Commissioners. • The remaining 4.5% of IPO funds will still be used as stated in the prospectus, namely for branch and facility development. • For the 2026 expansion funding, the Company stated that its internal cash flow is still strong, but the final decision will take into account the RKAP and the approval of the Board of Commissioners.
4	Daniel	Majalah Investor	Online (via Zoom)	1. Does the Company have internal comparative data regarding the damage cycle of EV wheels compared to ICE? 2. Does the weight of EV vehicles become a catalyst for potential revenue growth to offset the decline in other component services? 3. How do the unit economics of new workshops compare to flagship stores? 4. How many years does it usually take for new workshops to break even? 5. How does the Company ensure the quality of mechanical diagnostics in regional branches?	• The company has internal comparative data on EVs vs. ICEs, but it is internal and will be sent via email directly to the questioner as promised during the Q&A session. • The weight of EVs is indeed one of the technical parameters analyzed by the BD division as a potential future service requirement. • New branch unit economics: initial utilization is typically 40% and increases gradually over 2–3 years until it approaches the performance of a mature branch. • The break-even period varies by location and investment, generally 2–4 years. • Quality assurance for diagnostics is conducted through standardized SOPs, ISO 9001 & ISO 45001 certification, internal QC, central monitoring, and regular technician evaluations.
